EDUCATION

Dr A.P.J Abdul Kalam Technical University

Bachelors in Technology, Computer Science

Noida, India

2019 – 2022

Jamia Millia Islamia

Diploma in Computer Engineering

Delhi, India

2016 – 2019

EXPERIENCE

Software Engineer II

Apr 2023 – Present

THALES

Noida, India

- Led full-stack development of **Airlines'** In-Flight Entertainment (**IFE**) OTT platform serving thousands of daily passengers
- Designed and implemented streaming infrastructure using **NodeJS** and **Golang** backend using **React**, **TypeScript** as frontend
- Promoted **DevOps** integration by using Jenkins to create automated **CI/CD** pipelines, which shortened deployment times by 65% and allowed for quick feature delivery
- Maintained 90%+ test coverage by implementing a thorough testing architecture that used **Jest**, the **React Testing Library**, **Cypress**, and **Percy** for visual regression testing
- Managed code quality projects and created coding standards through rigorous peer reviews and architectural governance, which increased maintainability by 40%
- Participated in agile development processes, contributing to sprint planning and retrospectives

Software Engineer I

Aug 2022 – Apr 2023

THALES

Noida, India

- Engineered core components of the In-Flight Entertainment (**IFE**) platform using **React**, **TypeScript** and **Storybook**, creating a modular architecture that accelerated development velocity
- Established robust test-driven development practices that reduced production bugs by 75%
- Optimized application performance through strategic code refactoring, reducing load times by 30%
- Collaborated with UX designers to implement responsive interfaces ensuring seamless user experience across multiple device configurations

PROJECTS

School Management System | *ReactJs, NextJs, Firebase, TypeScript*

- Built a full-stack school management application with student registration, QR code ID card generation, and automated report card system.
- Implemented **Firebase** Authentication for secure user management and **Firestore** for real-time data synchronization across multiple users.
- Designed Excel-style interface for bulk report card creation with automatic grade calculations, ranking, and professional print-ready templates.

Real-time Chat Application | *ReactJs, NextJs, Firebase*

- Built a real-time chat application enabling seamless communication between users.
- Integrated **Google authentication** for secure and hassle-free user logins.
- Utilized **Firebase** for backend services, including authentication, real-time database, and messaging, ensuring high performance and reliability.

TECHNICAL SKILLS

Frameworks & Libraries: React, Redux, Next.js, Material-UI, Tailwind CSS, Storybook, Jest, WebSocket

Backend & APIs: Node.js, Express.js, RESTful APIs, Firebase

Programming Languages: C/C++, Java, Python, JavaScript, Typescript, Golang

Databases: MySQL, MongoDB, Firebase

DevOps & Cloud Tools: Kubernetes, Docker

Development Tools: Git, VS Code
